This Abstract shows that there are very few perfect titles in Tunica county. Many of them are utterly defective, and there are scarcely any that are not clouded by tax-titles. In some instances I find that valuable plantations, about the titles of which the holders have entertained no doubt, are held by titles that would avait nothing before a court, either in prosecuting or defending a suit in ejectment. The defects in these titles may generally be cured if they are ascertained at once and the proper remedy applied.
